To,

Mr. Navin Chaudhary,

Transformational School of Business

Sub: Experience of Transformational Workshop

Dear Sir,

Transformational workshop provided us with a lot of insights on personal development which if followed completely would surely lead to success. This workshop was very interactive and gave an opportunity to each participant to express themselves. We got a tremendous feedback from all the participants as they got motivated and recharged with all the learning. Moreover the participants also promised in the forum that they would not repeat the mistakes that they have been doing bringing a sense of responsibility. This workshop was surely transformational for our employees as this course has given each participant a new direction. Last part of the workshop – Presentation was one of the big takeaways. Participants started planning towards goal in their department and ways to achieve the same which they hadn't done before. This activity gave them a platform to present their thoughts which can lead to growth in company. They felt empowered which shall surely help the company for a long term.

I would recommend this workshop to all the companies that are looking for exponential growth by making their employees ready for the new challenges. I once again take this opportunity to thank you for a wonderful workshop.

For Vinay Group of Companies,
